The Association of Generational Experts for Seniors (AGES), is an independent network of highly qualified, caring and knowledgeable professionals from family and senior related fields.

AGES members, working as a cohesive resource team, apply their skill-sets to help guide and address the needs and challenges of seniors and families/caregivers to an improved quality of life. With this need in mind, AGES hosts a range of events and presentations including our SAVVY Senior Day tribute event which recognizes the contributions of older adults in the community. Our speaker presentations offer practical, interesting, and fact-filled material that is educational and thought-provoking without a sales pitch. We encourage interactive Q&A forums for deeper understanding of the topic. Attendees leave with practical solutions and newfound knowledge.

Topics can be presented by AGES members individually, as a panel or a scheduled series. Here is a small sample of available options. We can create topics as desired.
